**D. Answer the questions**(根据以下内容回答问题)

Last week I visited the village of Portmeirion in North Wales. During my childhood, I'd enjoyed holidays in the area, which is one of the most beautiful parts of the UK. I'd never been to the village and I had always wanted to. I visited it in the autumn, which was a good choice because it was less crowded than in the summer. I'd read about its history. I'd learned that the buildings were from many different styles and periods but hadn't realized how colorful they would be.

Portmeirion didn't exist in the nineteenth century. The first building went up in 1926 and the last in 1976. It was built by Sir Clough Williams. From the age of five, he'd dreamed of building his own village. He wanted to show that it was possible to build a village in a lovely area and not ruin it. In 1919, he sailed around the British coast for several months, looking for a suitable spot. He visited 22 possible sites before he found the place of his dreams at last, just 8km away from his family home. Sir Clough Williams had to build cheaply and quickly. I discovered that some buildings even had painted windows which were cheaper than putting in real windows! Some were built to look grander than they are. The windows in the bell tower, for example, become smaller as you go up the tower, so that it seems taller from the ground than it really is.

---

On my second day there, I stood on the balcony of my hotel at dawn. As I looked over the Austrian style houses with the wonderful view of Welsh coastline in the background, I realized what Clough Williams was trying to do.

88, Which country is the village of Portmeirion in?

89, Why did the writer think it was a good choice to visit the village in the autumn?

90, How many years did Sir Clough Williams spend building Portmeirion?

91, What did the writer find out about some of the buildings?

92, Where did the writer stay in Portmeirion?

93, The last sentence reads "I realized what Clough Williams spend building Portmeirion?"
